Table S11.1b. Inheritance and labor for cohorts born in the 1790s-2030s (series used for figures 11.9-11.11)

	Inheritance share (% total lifetime resources: labor + inheritance) (scenario	Inheritance (% labor resources) (scenario 1)	Living standard of the top 1% inheritance (% of the bottom 50% labor earners' lifetime resources) (scenario 1)	Living standard of the top 1% labor earners (% of the bottom 50% labor earners' lifetime resources) (scenario 1)	Cohort fraction receiving in inheritance more than the bottom 50% labor resources (scenario 1)	Inheritance share (% total lifetime resources: labor + inheritance) (scenario 2)	Inheritance (% labor resources) (scenario 2)	Living standard of the top 1% inheritance (% of the bottom 50% labor earners' lifetime resources) (scenario 2)	Cohort fraction receiving in inheritance more than the bottom 50% labor resources (scenario 2)
