TABLE	
I—Percentages of All Age Groups in All Livelihood Classes and Subclasses to All Ages . . . . .	1
II—Percentage Distribution of Males, having Secondary Occupations, amongst different Livelihood Classes . . . . .	23
III—Percentage Distribution of Male Workers in Industries and Services by Divisions and Subdivisions according to Age Groups . . . . .	185

## NOTE

THESE tables are supplementary to 'Census of India paper No. 5 of 1955—Economic Classification by Age Groups : West Bengal'. The figures in this table are based on those given in the before mentioned publication. As these figures can be easily worked out, it was felt that no useful purpose would be served by printing them along with the principal work. These are therefore printed separately and not put up for sale. These may, however, be supplied on request.
